Summary

Software enthusiast, specializing in making web development. Passionate about making the web a better place for humans, as well as open-source technologies. Curious about machine learning, data science, and creating the next layer of abstraction with them.

Work Experience

Full Stack Engineer at Revature: *2019 - Present*
- Front end/full stack engineering
- Microservice specialization
- Agile experienced
- Web design

Jr Software Developer at IC-CAP: *2018 - 2019*
- Web design
- Front end development
- Database design

Freelance work: *2018 - 2019*
- Web design and development
- Self-taught
- Worked directly with product owners

Education

Chattanooga State, *General Engineering*, graduated May 2017

Top Skills

Full Stack development	Microservices	database design
Front-end engineering	CI/CD	IaaS/Baas
Web design	agile + scrum	REST/Graph API

Technical Experience

Node, React, Angular	REST, GraphQL	Eureka, Zuul, Hystrix
Express, Spring	JUnit, Jest, Mocha	Jenkins CI/CD
CSS3, Sass, Less	Hibernate, TypeORM	Docker *(beginner)*
TypeScript, ES6	SQL, MongoDB	AWS *(beginner)*
